

# FORECAST: Daily Showers

*By Colleen Ringer*

A shower is a shower is a shower... Unless of course it's a \$100,000 shower, then it's a SilverTAG. This washing space by TAG Signature puts any home spa or powder room over the top. An undoubtedly distinctive bathing experience, the super shower is equipped with touch-screen technology that allows you to control water temperature and pressure for all 18 showerheads. In addition to making you feel so fresh and so clean, the SilverTAG offers a deluge of therapeutic advantages. Pre-programmed shower sequences can deliver full-body massages, relieve muscle tension and combat cellulite. Custom hydrotherapy is yet another option. For more information on how to incorporate this indulgence in your own home, call 304.793.2247, or visit [www.tagsignature.com](http://www.tagsignature.com).
