

# [ beauty bulletin ]

The best of everything beauty-related.

Right at your fingertips.

Does the person who has everything truly have everything? What about a \$100,000 shower system? The Silver Tag Shower, designed by Tag Galyean, features 18 shower heads arranged in four quadrants that can be controlled separately to vary temperature and pressure. Showering sequences—called Think Shower, Rain Shower and Never-Ending Shower, to name a few—can be altered at the touch of a computerized control panel. 304.647.3520
